EU Commission decided to award a prize to the Cilento Bio-District during the European Organic Farming Day: 23.09.22

**THE CILENTO BIO-DISTRICT**  
 Is a territory in which farmers, consumers, public administrators and other local economic operators enter into a pact for the sustainable management of resources, according to the principles of organic farming and Agroecology

The CILENTO BIO-DISTRICT is developed within the “Cilento, Vallo di Diano and Alburni” National Park

# An example of the activities promoted in the Cilento Bio-District

(Cilento roots)

(Cilento roots)

**RARECHE CILENTO FARMER'S MARKET** was promoted with the aim of re-establishing the squares as market places and bringing people back to meet and buy their food directly from local producers

**RARECHE is not just a market, but a project for the environmental, social and economic regeneration of the Cilento area: a new model of sustainable development, based on organic regenerative agriculture, recovery of food self-sufficiency and circular economy.**

**The project aims also to be an example and a stimulus for conscious growth on a small scale, replicable in other territorial contexts.**

# Organic Regenerative Agriculture: the agriculture that joins together

The producers of the Bio-District have at their disposal a complete pool of techniques and technologies, which they can easily apply on the farm, making themselves **independent from the agropharmaceutical industry.**

## New human relations in agriculture for a new society !

LET US GROW TOGETHER: FOR A BETTER WORLD  
AND BETTER HUMANITY!

Thank you
